

MULTIBOUNCE PRO

Professional

ModuCourts has more than 20 years' production experience, with our R&D Team, we can provide high quality products all the time.

All weather

Special testing high and low temperature environments. And all surfaces are UV-resistant.

Performance

Unique cushion design can provide excellent ball bounce and shock absorption.

Safest

For outdoor use, add fixing tools, helpful for areas that often meet hurricanes.

Thermal Expansion & Cold Shrink System

6 groups resilience arms & elastic pillars, prevent court bulging caused by the tiles expanding.

Special Designed Anti-slip Surface

Surface texture is composed of alternating parallel blocks and short lines. Providing excellent grip for emergency stops, quick starts, and steering, work well on wet-slip resistance.

Supporting System

The cross reinforcement structure has strong rigidity and good load-bearing capacity

Shock Absorption system

32 sets elastic cushions can provide unparalleled grip and shock absorption to protect your knee joints when you jump.

3rd Generation Fix Tool

Ensure a tight fit between the floor and the ground, ensuring the ultimate sports experience

Size	304.8*304.8*17mm
Weight	393.87g
Warranty	15 years
Material	High quality modified polypropylene
Quality	ISO 9001/ISO 14001
Shock Absorption	28%
Ball Rebound	100% ball bounce
Recycling	100% recyclable

AVAILABLE COLORS
